

Are you an immigrant, migrant or a refugee? Are you planning your future in Berlin? We would like to help you to get to know the German job market and education system and show work-related ways how to settle down and establish yourself.

We give advice on the following issues:

- How do I find work?
- How can I use my qualifications in Germany?
- How does the German job market work?
- How can I continue my education?
- How can I pay for further qualifications?
- What special offers are available for immigrant women?

We do NOT give advice on the following issues:

- asylum or residence permit, naturalization
- apartment hunting
- and we do not accompany you to offices or authorities

But we can recommend other organisations that can help you with these issues!
